

# Compounding disaster risks in a changed climate

DATA IS ALWAYS BETTER IN RICH COUNTRIES!  
... WE NEED ALSO DATA OF THE MOST VULNERABLE COUNTRIES!

OVER 100 MILLION PEOPLE WERE THROWN INTO POVERTY BECAUSE OF THE PANDEMIC!  
... WE HAVE BECOME MORE VULNERABLE.

WE HAVE TO TAKE ACTION BEFORE DISASTER STRIKES!

FOR THIS, WE NEED BETTER DATA!

MAMI MIZUTORI

... AND MORE POLITICAL COMMITMENT & WILL!

ANTICIPATION IS THE KEY FOR HUMANITARIAN WORK.

WE NEED MORE CAPACITIES ... INTERNATIONALLY & LOCALLY!

FULL UNDERSTANDING OF DISASTER RISK MANAGEMENT

... HOW DO WE REACH THE PEOPLE ON THE COUNTRY-SIDE?

MOST DISASTERS IN MALAWI ARE WEATHER RELATED ...

(... EVEN CYCLONS ARE STRIKING US, EVEN WE ARE NOT CLOSE TO THE SEA.)

... WE HAVE TO BRING TOGETHER HUMANITARIAN & DEVELOPMENT PARTNERS (AND COORDINATE THEM!)

HUMANITARIAN AID SHOULD NOT CREATE NEW RISKS ... WE NEED TO COLLABORATE OUTSIDE THE SILOS!

WE NEED COOPERATION WITH OUR INTERNATIONAL PARTNERS!

JOINED MEETINGS

WE NEED TO HEAR THE LOCAL VOICES!

WE NEED TO BRING TOGETHER UN- AND GRASSROOT-LEVEL

» ALL UNDER ONE HAT! «
